BULLETIN OF THE ICA Volume 108, October 2026

Table of contents

News 9

Minutes of the 2026 Annual General Meeting . . . 9
D. Panario et al.

2025 Medal winners . . . 18
D. Panario et al.

Conference announcements

36th Midwest Conference on Combinatorics, Cryptography, and Computing . . . 23
9–11 October 2026

SEAMS School 2026 on Graph Theory and Related Fields . . . 24
9–18 November 2026

Conference reports

Combinaorics 2026 . . . 25
G. Longobardi and P. Santonastaso

52nd International Workshop on Graph-Theoretic Concepts in Computer Science (WG 2026) . . . 33
J. Goedgebeur and P. Rzążewski

57th Southeastern International Conference on Combinatorics, Graph Theory, and Computing . . . 35
M. Provost

1st Winter Graph Meeting in San Luis . . . 39
A. Pastine

12th Korea-Sino/Sino-Korea International Conference on Coding Theory and Related Topics, Korea . . . 43
J.-L. Kim

Obituaries

Gustavus J. Simmons (1930–2026) . . . 47

Peer-reviewed contributions **51**

A unified treatment of some classic combinatorial inequalities using the variance method 51
D. R. Stinson . . . . . .
Generalized plane trees 69
I. O. Okoth and D. M. Kasyoki . . . . . .
On generalized Turán problems with bounded matching number 87
D. Gerbner . . . . . .
Parking functions with a fixed set of lucky cars 104
P. E. Harris and L. Martinez . . . . . .
The geoconvex number of a graph 151
R. Lenin and K. M. Kathiresan . . . . . .
When is the product of claw-free perfect graphs elementary? . . . 168
N. K. Vasudevan and K. Somasundaram . . . . . .
